- A. **GENERAL PLAN TEXT AMENDMENT No. GPTA09-001 – MERCED COUNTY -**
The County of Merced is considering a comprehensive update of the General Plan to revise and replace the existing General Plan, including all of the elements, the Land Use and Circulation Diagrams, and other existing goals, policies and implementation programs as needed to reflect current law and matters of public interest and concern. The 2030 General Plan will establish and implement new goals and policies for urban growth and development, for balancing population growth with economic development, infrastructure availability, agricultural preservation and natural resource protection. The State of California requires every city and county to have a comprehensive general plan, identifying current and future needs and establishing policy in seven issue areas (or elements). Merced County's General Plan addresses these seven areas and contains "optional" elements for a total of eleven elements including: economic development, land use, transportation and circulation, housing, public facilities and services, natural resources, recreation and cultural resources, health and safety, air quality and water. The 2030 General Plan would supersede the current Merced County General Plan, with the exception of the Housing Element which was updated in 2010 in compliance with State requirements. **WN**

Recommendation: The actions requested are to:
