RE: Draft Airport Land Use Compatibility Plan Update and Environmental Initial Study Review Process
(Agenda Item V.A.)

The Draft Merced County Airport Land Use Compatibility Plan (ALUCP) and related Initial Study environmental review documents were released for public and agency review on March 2, 2012. The ALUC Meeting scheduled on March 15, 2012, has been scheduled to provide the Commission an overview of the public review process, highlight the proposed Plan modifications that were circulated with the Draft ALUCP document, and to summarize the conclusions in the environmental Initial Study documents prepared for each of the five public airports covered by the Plan.

This meeting will provide an opportunity for the Commissioners, and any members of the public present, to ask questions about the Plan and provide any initial input into the environmental review process. However, following the ALUC meeting, a Public Workshop will be held in the Board Chambers from 4:30 pm to 6:30 pm which has been specifically scheduled and advertised to seek public input and answer questions about the Draft ALUCP and the environmental documents. The Commissioners are also invited to attend this Workshop.

Copies of the Draft ALUCP and related Initial Studies were previously sent to all Commissioners. You may contact me at 385-7654, Extension 4402 if you have any questions of staff in advance of the meeting.
