

M&L FIELD BK 147

At the North East corner  
of Section 35 1/2 I found  
an 8" x 8" post 6" below  
ground in center of road.  
and the N.E. witness  
post only.

I measured the East boundary  
and found it 5230 ft.  
I set a stake in center of  
road at each 1320 feet  
and 4" x 4" post 30" on  
each side 6" above ground.

I set an Iron pipe 125.5 ft  
south of the N.E. corner.

Measuring along the South  
boundary I found a  
4" x 4" post 30' North of  
line at 1320.0 W. of S.E. Cor  
At 1740. I set an iron pipe  
on line flush with road  
surface and a 4" x 4" post 30'  
North 6" above ground
