Election Code §3005. Whenever, on the 88th day before the election, there are 250 or fewer people registered to vote in any precinct, the elections official may furnish each voter with a vote by mail ballot along with a statement that there will be no polling place for the election.

The elections official shall also notify each voter of the location of the two nearest polling places in the event the voter chooses to return the ballot on Election Day. The voter shall not be required to file an application for the vote by mail ballot and the ballot shall be sent as soon as the ballots are available. No precinct shall be divided in order to conform to this section.

Election Code §12241. (a) The elections official conducting local, special, or consolidated elections, or statewide elections other than the direct primary, presidential primary, or general election, for the purpose of the election, may divide the territory within which the election is to be held into special election or consolidated election precincts by consolidating existing precincts, or otherwise, subject to Section 12222, and may change and alter the precincts for those elections as often as occasion requires. Not more than six existing precincts may be consolidated into one special election or consolidated election precinct. The polling place used for a consolidated precinct shall be located within the boundaries of the consolidated precinct.
